From the Alexandria Gazette.

Our correspendent, A. B., has performs ed an acceptable service in collecting the facts which he embodies in what may be called his 'Thoughts on the Present Discontents,' and in giving utterance to his reflections upon the progress of disaffection to the laws and the general decline of public virtue. If ' History be philosophy teaching by example,' how awful are the warnings and terrible the lessons of the history even of our own times and our own country! Look at the picture presented by our correspondent, and see how strong are the symptoms of decay of national morality, and consequently of national happiness and greatness! Nor ought any American to shut his eyes to the real state of the case.... To be forewarned is to be forearmed. Possibly by having attention aroused to the facts, a salutary reform may be brought about in the minds, tempers, and dispositions of the people, and a correction thus applied to the great evil. Heaven grant it!

Even by those who may not acquiesce in all the opinions expressed in the essay of our correspondent, with regard to the cases cited, the general conclusions to which he arrives must be admitted. All must acquiesce in the justice of the moral deduction.

It is a source of some satisfaction to us to reflect that, in relation to each and all the instances of violence, disorder, and guilt enumerated, this press, in its humble sphere, has performed its duty. It has never hesitated to direct its severest censures against all outrages upon the Law of the Land-those pillars and supporters local and limited in nature and extent, of the social as well as political edifice under which we live, and to upturn or destroy which would be a crime, in our eyes, past forgiveness.

PROGRESS OF DISAFFECTION TO THE LAWS AND DECLINE OF PUBLIC VIRTUE.

The last number of the London Quarterly Review has an able article on the subject of French Novels and the immoral tendency of this species of French literature. A perusal of this article cannot fail to impress the reader with a conviction unfavorable to the state of morals in that country. It presents the singular anomaly of a people most vehement & successful in contentions for principle, and who are yet, in reality, possessed of no principle at all, or at least of none that can add to the true glory of a nation. Whatever benefit individuals and families may have received from the events of July, the restraints imposed by religious feeling and social order, are in perfect keeping with the tyrannical edicts against the press and the almost popular attacks upon the life of the sovereign.

While this deplorable state of things is moving onward in a confessedly enlightened part of the old world, and hastening to a crisis that must inevitably disturb the foundation of society there, and by its example injuriously affect good order every where, it will be well for those who have these interests at heart, to enquire into the moral and political condition of our own country, and the security we enjoy against the unbridled license of the mob on the one hand and laxity of law on the other. If coming events cast their shadows before, and the transactions of a few years past, in various quarters of the Union, are forerunners of evils which are yet in embryo, then we repose upon the bosom of a volcano, and rest in deceitful security, but the whole subject affords a fruitful theme for an abler pen and a more elabor ate examination than can be given it within the compass of a newspaper. It is only intended now to glance hastily at some of the more prominent transactions of the mob, in order to show the uncertain basis upon which the peace of society and the rights of individuals rest.

AFFAIRS OF CANADA.

Wednesday, June 29th. Sir C. Grey brought up papers connects ed with Canada, which were ordered to be printed.

Mr. Hume wished to know whether there would be any objection, in addition to those papers, to lay on the table of the House, the address of the Assembly to Sir Francis Head, respecting the Orange Lodges, and his answer, stating that he had no intention to interfere in the matter.

Mr. Roebuck inquired whether Governs ment had received any official copy of the Address reported to have been delivered by Sir Francis Head expressive of his determination to dissolve the present Upper Canada Assembly, in reply to an Address from the electors of Toronto, ending with these remarkable words- In the name of every regiment of Militia in Upper Canada. CONSTITUTIONAL FEELING IN THE CO. OF DUNDAS.

Notwithstanding the as yet impenetrable scurf of republicanism in the County of Dundas, it is most gratifying to see that, even there, a choice number of Constitu. tionalists abide, before whose persevering efforts it must soon disappear. The accounts of the revenue for the quarter ending on the 5th of July had been published, and show a very satisfactory state of affairs.

The increase in the customs of £1,162,-402 upon the year, and £381,260 upo the quarter; and in the excise of £384,912 for the year, and £813,021 upon the quarter-which gives, in round numbers, an advantage under these two heads over the former year of full two millions. Stamps also had proved more productive by £229, 874 upon the year, and £110,096 upon the quarter than the last returns; and the same is to be said of the Post Office, which shows an increase of £69,000 upon the year, and of £34,000 upon the quarter. The assessed taxes have decreased by £196,6111, upon a comparison of the two years, but show an improvement upon the quarter of L70,707.

The taxes classed as 'miscellaneous' have increased upon the year the amount of L870, but fallen off for the quarter by L2,-815. The increase for the whole year as compared with the last, is L2,045,456 and upon the quarter, L1,306,984. amount of exchequer bills which will probs ably be wanted for the service of the current year, is fixed at L6,412,877.

Irish Reform Bill-Result of Confer. ence & c.

In the Commons, on the 30th June, after the presentation of many petitions, there was a conference with the Lords. The ' reasons,' having been presented and read to the house.

Lord J. Russell said that as these reasons held out no prospect of any settlement between the Commons and the Lords, as to what ought to be the provisions of the Irish Corporation bill—as the Commons were for retaining, while the Lords were for abolishing the Corporation in Ireland he would not propose that the reasons be taken into consideration. On the contrary, he moved that they be taken into consideration that day three months. His Lordship observed that there were observations in the Lords' reasons, which induced him to cherish a hope that at no distant period-perhaps within a few months -their Lordships would co-operate in the devising of measures for the improvement of local government in Ireland.

Sir R. Peel condemned the proposition now made and thought they ought to take into consideration the Lords' reasons.

After some discussion, in which Mr. Hume, Mr. O'Connell, &c. took part, the motion was carried without any division, by which decision the Commons have terminated the matter for the present ses-

Bell's Weekly Messenger makes the following remarks upon this result :-

'Thus, therefore, the collision has termi. nated for the present, and we think we may add, as regards any peril to the con-stitutional joints and frame work of our government has terminated altogether. There can exist, indeed, no manner of doubt, that the radical and Democratic party in the state, and all its ramifications in England and Ireland, are disposed to take the part of the ministers, and to de-nounce the conduct of the Lords as a harsh and violent stoppage of the course of gov-ernment. But, as was said by Sir Robert Peel, it is equally certain that the very great majority of the property and intelligence of the empire adheres most warmly to the Lords, and will support them in the fearless discharge of their constitutional

FRELIGHSBURG, AUGUST 23, 1936.

No one can read the article, signed A. B., without being reminded of the utter impracticability of a democratic form of government.

Here, then, is a nation in the possession of every facility for the establishment and successful carrying on of a republican form of government. Its people might be in the possession of every earthly blessing; but all the advantages of soil, climate and freedom from debt, are lost to them....simply in consequence of that republican government. We are aware that the constitution of the U. S. looks well upon paper tution of the U. S. looks well upon paper; having received from the happy pair as much of the history from the beginning of the world, the wedding loaf as will feast our friends and ourwould give itself now the lie, did the effects of republicanism in the Union, prove different from what they have been in all other countries, in which republicanism has pre-

degree qualified, if not checked; but such is the inevitable effect of republican institutions on the human mind, that among the people the doctrine is received with unqualified admission and terribly acted upon. It would, therefore, be source of wonder, if riots, fire-raisings, plunder and The trial of Alibeau was expected to commence on the 7th or 8th, the investigation commence on the 7th or 8th, the investigation of the people, that is, or sovereign will of the people, that is, or so the people of the above; orders for which will be taken at low prices & executed with despatch. even murder, in its most horrific and harthe majority. Still, these crimes, it may be said, might occur and being punished, the government itself be permanent. But if the government itself, confess its inability to punish, and if the judicial tribunals, as in the case of Judge Lawless, declare that crimes perpetrated by a mob should not be punished, the argument against the permanency of the government is unassailable: and if the officers of government of themselves declare the WILL of the people to be the highest power in the country, as in the case of Amos Kendall, where is the supremacy, which, by the law is vested in the government, but in that WILL? The law of the land is the nickname for popular will, and liberty that for unbridled license. Such are the blessings of a ' pure democracy.'

The United States must soon be driven to the necessity of keeping up a standing themselves. From the standing army will spring a military despot; and from military despotism a limited monarchy. No man can look forward to these changes but with alarm and pain.

There are misguided beings, too, in this province, who would bring upon us all the horrors of republicanism, and that of the most hateful shape-French republicanism -the republicanism of the French revolution. We would offer to such beings the advice to wait the result of the experiment going on across the line; and if it prove successful, we think that they had still better wait until the Frenchmen in France try the experiment again, and after that wait

A COMMON CASE.

By the side of the sea in a cottage obscure, There liv'd an old fellow named Charlotte Bon-

Who was free to all people and good to the poor; Catching fish was his trade and all people said, That mischief to nothing but fish he design'd, To all people else he was candid and kind, One day as he went to the brink of the lake, Persuading the fishes their dinner to take, The last he intended they ever should make; While his hooks he employed to their sorrow and Woe

A grunting he heard in the waters below, And casting his eye to the bottom, for here We'll suppose that the water was perfectly clear, He saw on the bed of the liquid profound, An unfortunate wight who was drowning or

He took up his pole with a hook at the end, And to it he fell, and managed so well That soon to the margin the carcase was drawn When who should it be but his old neighbor John; Now some how or other, it popped in his head, That in spite of his drowning the man was not dead;

He saw with vexation and sorrow, no doubt, That in lugging him up he had put one eye out .-To his cottage he took him & there had him bled, Rubb'd roll'd on a barrel, and then put to bed, So in less than a week the man was as sound, Excepting the loss of his eye and the wound, As if in his life he had never been drown'd: But when John-bad begun to travel about. He was sadly chagrin'd that his eye was put out, And forgetting what service his neighbor had

done him, Went off to a lawyer and clapp'd a writ on him; Talk'd much of the value of what he had lost, And that Charlotte should pay all the damage and

and if with such sentence he would not comply, He swore he would have his identical eye. Now the lawyers and judges were all at a stand, Which way to determine the matter in hand, Till a half witted fellow, who chanced to be there, Undertook to determine this mighty affair, and said:-Can you doubt in a case that's so

plain? Be guided by me, and you'll not doubt again; The plea of the plaintiff rests wholly on this, That in fishing him up he takes it amiss, And thus in the bungling to ruin John's looks' And put out his eye with the point of his hooks; New, my Lord, Judges, attend my decree, -Straightway let the plaintiff be thrown in the sea, And if after reposing a while on the bottom He get out alone from where Charlotte got him, Safe, sound, and undamaged, why, then 'tis my sentence,

That Charlotte be punish'd & bro't to repentance; But if after gas ping and flouncing about, He drown in the water and never get out, Why, then it is justice, it must be confest, That Charlotte be discharged forthwith from ar-

John seeing his toast beginning to burn, And finding his matter had took a wrong turn; Grown pliant at last, his case he withdrew; His plea was so bad and his friends were so few, Sneaked out of the house with a hiss of disgrace, In dread lest the sentence should quickly take place.

MEDDLERS.

There is a certain class of people yeleped Meddlers, who seem to have a great regard for every body's business to the neg-lect of their own. That is....they are continually poking their noses right in your face; prying into your secrets; calculating on this thing, on that thing; standing at every nook and corner of the streets, watching your motions; and if you are so unfortunate as to step one inch aside from their way, which their own wise heads deem proper, then the whole swarm will be after you, and you have no possibility of an escape. For instance...if a man honestly owes his neighbor one and sixpence, these busybodies are sure to find it all out, and report goes abroad that he is wonderfully in debt, and must fail, there is no help for him.

Who told you so? says one, Oh, I heard it down in Mr. Mucklestane's shopit's in every body's mouth. They say such expensive living so many nicknacks he cant stand it.

I pity him, says one. I don't pity him one mite, says another: he has been strut-ting about with other folks' money in his pocket long enough-I'm glad on't.

So am I, says another ... guess he'll speak to common folks now, and his wife too.. They say she feels monstrous big with her gewgaws and pimlicues, and ruffles & flounces, and silks and starch....Oh me pride must have a fall.

In consequence every person to whom the unlucky debtor owes six cents, is 'wide awake,' and slap bang comes writ after writ, until his 'goods, chattels and estate,' are but little the better or wiser 'for want thereof.'

Then again-if a single man, of mere any other place, with a single lady, then nods, winks and grimaces, and speaking in a half surpressed tone :- I've heard wonderful news! Oh, what is it? do tell I'm dying to know, says another. Well-I'll tell you! but you musn't tell on't for all the world, says the first.

Bless me....I hope you don't think I'll tell on't. You know I never tell of any thing, says the second.

Do tell us, says the third, I won't tellon't just as true as I live.

Horrors of War .- It has been computed that 210 battles had been fought in England, from the invasion of Cæser, to the close of the Scotch rebellion, in 1745. In only 40 of these is the slaughter ascertained, but in those 40 battles no less than 580,000 men were sacrificed.

An able writer (Edmund Burke) calcu. lated that the number of human beings who have been slain in battle, and who have perished in a no less miserable manner by the consequence of war, from the beginning of the world to the commencement of the French Revolution, was at least seventy times the number of souls then on the globe; which, at the calculation of five hundred millions for its population, amount to the almost incredible number of thirty-five thousand millions. All these have been hurried into the presence of their Judge, and among them, we may fear, there were but very few who did not burn with rage, and reek with their brother's blood. This heart rending calculation was made, before the exploits of Napoleon deprived Europe of two millions more of her sons. But this is merely an outline of war's dismal picture; for who can delineate the tears, the blood, the bros ken hearts, the anguish, and the wailing, that form the filling up!

We recommend the following very wholes some admonitions to the serious attention of our numerous readers.

Pay thou the printer in the day that thou owest him, that the evil day may be afar off, lest the good man of the law sendeth thee thy bill; greeting.

Remember him of the quill, and the devils around him, and when thou weddest thy daughter to a man of her choice, send unto him a bountiful slice of the bridal

Borrow not that for which thy neighbor hath paid, but go and buy for thyself of him who hath to sell.

Thou shalt not read thy neighbor's per, nor molest him in the peaceful possession of it, lest thou stand condemned in the sight of him who driveth the quill, and thy character be hawked about by poor children .- Emigrant and Old Countryman.

NEW ORLEANS Terrible Affray .. The steamer Carrollton, arrived on Sunday last from Vicksburg, brings intelligence of a deadly affray which took place there previous to leaving, between a planter, Randolph and a Dr. Watts, both citizens of the place. It originated from an old grudge said to have existed between the parties for some time. It appears Dr. W. met Mr. R. on the morning of the I4th inst., when he drew from his breast a pistol which he fired at Randolph; but missing him, & perceiving that he was unarmed, he ran up to him, & inflicted several severe blows on his agitated although it was perfectly calm at head with the butt end of the pistol. If we pour sparkling champaigne into a tall glass till it is half full, the glass cannot be made to ring by a stroke on its edge, but admits a dull, disagreeable, and puffy sound. The effect continues as long as the effervescence lasts, and while the wine is filled with air bubbles. But as the effervesence subsides, the sound becomes clearer, till at last the glass rings as usual, when the bubbles have disappeared. By reproducing the effervescence, the sound is deadened as before.-The same experiment may be made with effervescent malt liquors; and with still more effect, by putting a piece of sponge or a little wool, or tow, into a tumbler of water. The cause of the result obtained by M. Chaldini, that the glass, and the liquid contained, in order to give a musical tone, must vibrate regularly in unison as a system, and if any considerable part of a system is unsusceptible of regular vibration, the whole must be so. This experiment has been employed by Humboldt to illustrate and explain the phenomenon of different sounds being more distinctly heard during the night .- Encyclopedia Ameri-

> Toronto, August 2.—EMIGRATION ... Extract of a letter from a gentleman residing near Delaware, to a friend in Hamilton, Upper Canada, dated July 8th

> 1836 :.. 'The tide of emigration must flow back ere long; a reaction must take place. A gentleman from Michigan informed me a few days since, that it was nearly impossible to purchase a good farm of wild land, well situated, either there or in Illinois, under fourteen to twenty dollars per acre, as speculators and their agents were actually on the heels of the Commissioners, whose duty it was to sell the lands, and that they bought every acre that was not actually a sandy plain, or an irreclaimable swamp. This will of course disgust and dissatisfy many who flock thither for the purpose of purchasing cheap land. The esult will be, that th derers, who would at present exchange their kingly for a republican government at the price of a few dollars will gladly revert back upon poor Canada as a better place,

The St. John's papers of the 2Ist, ult. describe the shock of an earthquake felt in the province on the 6th. At St. Steven's it commenced a heavy rumbling sound like the distant discharge of artillery. At Milltown, two gentlemen, who were sitting in a house engaged in conversation at about three o'clock on the day, had their attention suddenly arrested by a violent concussion resembling the fall of a heavy substance upon the building in which they were. PHILADFLPHIA MIRROR HE splendid patronage awarded to the Philadelphia Saturday Courier, induces the editors to commence the publication, under the above title, of a quarto edition of their popular

ournal, so long known to be the largest Family Newspaper in the United States, with a list of near TWENTY SIX THOUSAND SUB-SCRIBERS.—The new feature recent y introduced of furnishing their readers with new books with the best of literature of the day, having proved so eminently successful, the plan will be continued. Six volumes of the celebrated writings of Captain Marryatt, and sixty-five of Mr. Brooks valuable letters from Europe, have already been published without interfering with its news and and miscellaneous reading. The Courier is the largest and cheapest family newspaper ever issued in this country, containing articles in Literature Science and Arts; Internal improvement; Age riculture; in short ever variety of topics usually introduced into a public journal. Giving full accounts of sales, markets, and news of the lates,

It is published at the low price of 2 dollars. For this small sum subscribers get valuable and entertaining matter, each week enough to fill a common book of 200 pages, and equal to 52 volumes a year, and which is estimated to be read, weekly, by at least two hundred thousand people, scattered in all parts of the country, from Maine to Florida, and from the sea board to the Lakes. The paper has been so long established as to rem der it too well known to require an extended prospectus, the publishers, will do no more than refer to the the two leading daily political papers of opposite politics. JAMES RUSSELL ber contains more really valuable 'reading mater' than is published in a week in any daily paper in the Union.—Its mammoth dimensions enable is enterprising proprietors, Messrs. Woodward & Clarke of Philadelphia, to re-publish in its columns, in the course of the year, several of the most interesting new works that issue from the British press, which cannot fail to give to its permanent interest, and render it worthy of preservation. To meet the wishes, therefore of such of their subscaibers as desire to have their numbers bound, they have determined on issuing an edit tion of the Courier in the Quarto form, which will render it much more convenient for reading when it is bound in a volume, and thus greatly enhance its value.'

THE QUARTO EDITION.

Under the title of the Philadelphia Mirror, will commence with the publication of the Prize Tale to which was awarded the prize of one hundred dollars, written by Miss Leslie, editor of the splendid Annual the Token, and author of Penell Sketches and other valuable contributions to Americhn Literature. A large number of songs, poems, tales, &c. offered in competition for the 500 dollars premiums, will add value and interst to the succeeding numbers, which will also be enriched by a story from Miss Sedgewick, author of Hope Leslie, The Linwoods, &c., whose talents have been so justly and extensively appreciated, both at home and abroad.

This approved FAMILY NEWSPAPER is entirely neutral in religious and political matters, and the uncompromising opponent of quackeryel every kind.
